

Protect Your Gun Rights!

**NO on
I-1639**

I-1639 is a fraud! Supporters call it the “safe schools” and “safe communities” initiative. It’s NOT! Not one word in any of its 30 pages addresses school safety or our communities. They have gone too far. This initiative will allow the state access to your most private medical records, and it forces government into inspecting your home without warrant, mandating storage regulations and inflicting harsh penalties for exercising your Constitutional rights. Read the initiative for yourself:

UNDER I-1639, YOU WILL BE REQUIRED TO:

- Waive privacy of your health records for your lifetime
- Wait 10 days when buying firearms
- Routinely undergo mandated state training
- Lock firearms at all times in your own home
- Pay \$25 tax per firearm purchase (no cap)
- Undergo annual background checks for ALL firearms owners who have ever bought a firearm in Washington, forever
- Prohibit firearm ownership until 21, including military
- Have a permit to purchase or POSSESS a firearm

I-1639 WILL:

- Protect the government from its non-compliance
- Make ownership expensive, punishes the poor and single parents
- Violate federal trade law restrictions
- Eliminate home defense for immediate access to your firearms
- Make you a felon if your firearm is stolen and used in a crime
- Classify hundreds of rifle models as assault weapons, including .22 rifles or hunting rifles that have semi-automatic actions which have been common usage for more than 100 years.
- Do NOTHING to improve or enhance school safety

I-1639 is a bad deal, except for criminals.
